

THE DAILY BULLETIN.
TUESDAY EVENING, JULY 15, 1884.

It is reported that John Kelly will support Cleveland in preference to Blaine.

TAMMANY Democrats in New York will support Cleveland. It is so announced.

CAMPBELL and Kenton Counties have instructed for O. B. Hallam for Judge of the Superior Court.

LEXINGTON Democrats are reported excited over a plan to pack the Superior Court Convention for Hallam.

The National Convention of the Prohibition and Home Protection party meets at Pittsburgh on the 22nd of July.

The Republicans are confident of beating the new ticket, and in some sections claim large defections from the Democratic ranks.

BLAINE says that Cleveland is a formidable candidate and will run well in Ohio, New York and Indiana. The Plumed Knight is a good judge about some things.

The New York Herald has promptly placed the Democratic ticket at the head of its columns, and expresses the opinion that New York is certain to give Cleveland a majority.

THERE were forty-seven deaths from cholera at Marseilles and thirty-six at Toulon, on Sunday. The disease is increasing in violence at both places. The distress is great and a riot by the people is looked for every day.

LOGAN has blocked out a plan for the Republican campaign and will submit it to Blaine for his approval. Prominent speakers of Ohio, Indiana, New York and other States are down as active workers. The fight is expected to be sharp and bold one.

The New York Times (Independent Republican) puts it in this way: "With Grover Cleveland as its candidate the Democratic party appeals with unmistakable directness to the moral sense of the people of the United States. Shall the next President be a man who has weakly yielded to temptation, or a man who has unwisely adhered to the right against powerful enticements to do wrong?"

DA. KOCH, in explaining the effect of cholera microbes and how they may be killed, advises that all wells should be shut up and only boiled water or water from non-infected places drunk by the people. He says the microbes, which cause cholera, cannot live in a dry atmosphere, he therefore advises against permitting stagnant pools of water (hot wells) to stand on the streets, which should be kept as dry as possible. He also thinks that is inviting death to deposit decaying vegetable matter about premises where people live. The attention of the city council of Maysville is called to this note of warning.

Cleveland as Mayor.

The old ring council held over for some weeks after Cleveland became Mayor. On a five years' bid for cleaning the streets of Buffalo they audaciously awarded the contract to the second lowest bidder, whose bid was \$55,000 higher than the lowest. In respectful language Mayor Cleveland vetoed the award and recommended that the lowest bidder receive it. This was done, and for the first time in memory a veto message to the council again awarded it to the second lowest bidder. This Mayor repeated his veto, but used somewhat more pungent English. Again the council re-advertised for bids, and awarded the contract to the same bidder. "With such a poor forbearance had ceased to be a virtue, and Mayor Cleveland wrote the famous veto message, which subsequently made him Governor, and now bids fair to make him President of the State of Ohio."

The veto message in substance said: "Members of my city in control; Your persistence in making the award, which I herewith return to you without my approval, calls for plain language. To charge that the ring council had been guilty of public robbery, and its actors be another name than public thieves, would be a misuse of language." The ring council was paralyzed. The people seemed ready to rise and disperse them, and they hurried away without bidding to the second bidder. A public meeting, inlaid with Mayor Cleveland's curse. He called on the Legislature to aid by charter Legislation, and it did so. His administration reduced taxation and saved the city hundreds of thousands of dollars.

NEGRO OUTRAGES.

A Fearful State of Affairs at Dallas, Texas.

DALLAS, Tex., July 15.—A negro was found dead yesterday morning, just before daylight, and attempted to outrage her person. Mrs. Gerstel fought her desperately, scratching him badly. Her face was fearfully scratched, and she was severely shocked, and could not get out of bed.

Phillipson came to Mrs. Gerstel's third, when the negro fled. Phillipson fired three shots at him, but failed to hit him. Mrs. Gerstel's struggle prevented the negro from accomplishing his purpose, but she is terribly very ill and under medical treatment. The white population of Dallas is almost desperate to-night, and it would not be surprising to hear of the most terrible and wholesale punishment being visited upon the negroes and colored people who infest the city at any moment. Within five weeks assaults upon fair white ladies of the best standing have been made by negroes, and in one case the most deplorable results followed. At least a dozen negroes have been known to commit rape in the rooms of white women at residences where the men were absent. Numerous negroes have been arrested and held, but sufficient evidence could not be secured to justify mob law. A vigilante committee has been formed, and last night the day of the black citizens of all colors.

A negro entered the residence of M. Benedict about midnight, where four ladies were alone. He was discovered and fled, running by two police officers fired at him, but he failed to hit him. His coat was found to-day near the house, where it is supposed he left it for the purpose of getting it, if discovered in his shirt-sleeves, and thus disguise himself.

In reference to the wages of the people of the city and Chief of Police, the City Council increased the police for to-night-fourth its full strength, and the extra men are now on duty. A citizen patrol is also on duty, and from mysterious movements it is generally regarded have determined to soon end the reign of terror.

HEAVY CONTRACT.

Lease of the Oregon Railroad and Navigation Lines.

PORTLAND, OREGON, July 15.—Robert Hanson, president of the Oregon Railroad and Navigation Co., died Saturday night. Yesterday he said the rumors of a lease by the Northern Pacific of the Oregon Railroad and Navigation lines were true. Negotiations have been in progress for a month or more on the part of the two railroads. As far as can be learned since they paid all fixed charges and it cost on the stock the first year, 7 per cent, the second year, and 8 per cent thereafter. Mr. Harris desired it understood that the Oregon Railroad and Navigation Co. would not make a direct offer to make the lease at these figures, and that the Northern Pacific had not offered to pay this amount, but that negotiations were in progress on terms satisfactory to both companies. As far as can be learned in 100 miles of railroad in operation, 100 under construction 600 in preparation, 200 miles of railroads in steamboats, twenty-five steamboats, five ocean steamers, several pieces of dock property, and the interest in the terminals of the port of Portland, it will be a valuable property before the formal transfer is made. This will probably be done however, late in August. In reference to the Union Pacific, Mr. Harris said it had a traffic contract for ten years, and it would enter Portland on terms as good as the Northern Pacific during that period.

FULL DRAWS—DEMPSAY FIGHT

Will End Either in a Row or a Fizzle.

BALTIMORE, July 15.—An attempt was made to draw the fight between Dempsey and Hearn early this morning, and it looked as though they would fight at last, but refutes Carroll refused to act in this State. As the police were watching the house, another referee was brought in, and with five others a draw was ordered. The fight is to be held at Delaware, but both sides objected, and a general row seemed imminent. The Dempsey party was strong and wanted to have the fight come off in a place where it would be in view of a large number of strangers. The Fulljames party numbered just four, so would have the words of the affair should Dempsey's backers decide to take a hand in the contest, and seeing this they refused to let their men go. The law of the ring is that a party may then enter the fighting ground. Dempsey stripped and got into the ring. The boxer has since returned and gone to the stakeholder to claim the money. He is a clever one, but will probably fail. The leaders of the men, it is said, will go to New York to-morrow night, and probably fix up the matter. All hands have left for home.

They Had Been Drinking, And Wound Up by Fighting a Harmless Game.

SAN ANTONIO, Tex., July 15.—A duel was fought yesterday at Laredo Station, on the Southern Pacific Railway, at thirty paces, between Lieutenants Cunningham, commander of the 10th Cavalry, and Captain D. C. Anderson Daily. The weapons used were pistol. Three shots were fired, resulting in the killing of Cunningham in the leg. When it became known in camp that the officer had been wounded, the men of the 10th Cavalry gathered and sought to assassinate Daily. They were restrained by Cunningham. The encounter is said to have resulted from a drinking bout.

Made Insane by Fear.

RUSVILLE, ILL., July 15.—Last Saturday while a party of young people were on a picnic in a grove of trees here, a snake bit a snake, and a young lady picked it up by the tail and threw it around the neck. Miss Maggie Sparks, a bright and intelligent girl nineteen years of age, at and the same time became insane. "She was frantic, and lay on the grass stark naked, and has been a raving maniac ever since. Her physician has slight hopes of her ever recovering her mind.

Whisky That Killed Indians.

SALT LAKE, U. T., July 15.—Wm. Moore sold some Indians, at Pleasant Valley Inn, a mixture of glycerine, tobacco juice, turpentine and alcohol, which he called whisky. They took it and the Indians died. The Indians then told from whom they got the stuff, and Moore is now in the calaboose.

Euclid's Plans.

QUEBEC, July 15.—The bank defaulter, who was set at liberty yesterday, announced his intention to remain in Canada for some time. He will probably purchase a boat and sail here for the summer and his family will shortly join him. It is thought Euclid will remain on British territory so as to escape further prosecution.

A dispatch from Major Bell, in command of the barracks at Newport, Kentucky, says Quinn is out of danger.

A Singular Accident.

NEW YORK, N. Y., July 15.—As John Carr was drawing a team of horses to haul through Market street, a sight of which suddenly sprang into the crowd and pulled the other side, a flagstone between the horse-car track had fallen in under the weight of the horse, leaving a hole no less than 12 inches deep. The team was buried in sand and completely hidden from view. It is thought both horses have passed into a grave.

Father and Son Killed.

SIXTH CITY, Ia., July 15.—A farmer named Hansen and his son, a boy of 12, and his wife, with Mrs. Hansen and a hired man were standing in the kitchen shed. A neighbor noticed that the house was on fire, and going outside found the man at the door and woman and child inside on the floor. The building was saved, and the injured persons will recover. The dead were not disfigured.

On Hand October 24.

CINCINNATI, July 15.—John B. Hoffman who deliberately murdered his son Robert A. Edison, Jr., on January 13, 1883, because he believed his son was a thief, was sentenced this morning by Judge Maxfield, to hang on the 24th of October, 1884. The lie of defense in the trial was insanity. Hoffman killed another son of his a few years ago.

A Carnival of Crime.

MATAMOROS, MEXICO, July 15.—Yesterday day, in Guadalajara, the naked body of a man, with the heart cut out, was found in the street near from his house. A lad named Anteicio was barbarously beaten at Merced street. The murderer was at the head of Merced street. The murderer was unknown.

Two Outlaws, Isidore Ista and Domingo Jares, were shot by a patrol of citizens

in Matamoros yesterday.
